## HOME OF THE SPRING BROOK BESS BURKE 2d FAMILY

Unequaled for its combined weekly and yearly milk and butter records

MOTHER

SPRING BROOK BESS BURKE 2d

SON

BESS JOHANNA ORMSBY

DAUGHTER

SPRING BROOK BESS BURKE 2D is the largest dairy cow in the World, weighing 2225 lbs., and the only cow in the world to have made three 7-day butter records, each above 35 lbs., in connection with three yearly records, each above 1000 lbs. She is also the only cow with two 36-lb. butter records from 700 lbs. of milk in connection with two yearly records, each above 1000 lbs. of butter. Spring Brook Bess Burke 2d, with her dam, granddam and two  $\frac{1}{2}$  sisters, holds all world's records for both butter and milk for a year.

SPRING BROOK BESS BURKE 2D has three noted sisters with 7-day butter records from 33.23 to 42.31 lbs., and yearly records from 1175 to 1235.33 lbs.

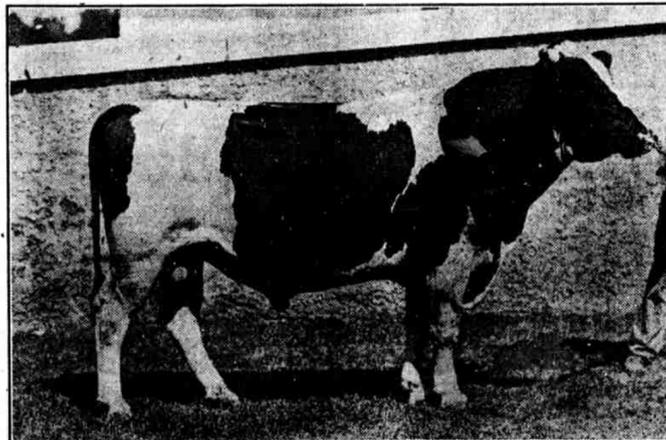

SPRING BROOK BESS BURKE 2D is the dam of Winterthur Farms' herd sire—KING OF THE ORMSBYS. Her dam is a 34-lb. cow and the only cow in the World with three daughters with 7-day butter records from 33 to 42 lbs., one of them being the dam of King of the Ormsbys and the other his  $\frac{1}{2}$  sister.

We Are Consigning to the Philadelphia National Sale a 20-lb. Great-Granddaughter of King Segis and a 23-lb. Two-Year-Old Granddaughter of King of the Pontiacs. They are in calf to KING OF THE ORMSBYS

BESS JOHANNA ORMSBY is a daughter of Spring Brook Bess Burke 2d and is a full sister to Winterthur Farms' herd sire—KING OF THE ORMSBYS.

BESS JOHANNA ORMSBY recently completed the following records at the age of 4 years and 8 days: 40.71 lbs. of butter and 657.60 lbs. of milk (7 days), 147.81 lbs. of butter and 2897.50 lbs. of milk (30 days). At the age of 2 years she made 25.90 lbs. of butter and 452 lbs. of milk (7 days), 881.95 lbs. of butter and 17,800.10 lbs. of milk (365 days). In her yearly work, which began in January, she is continuing the high standard of production of the Spring Brook Bess Burke 2d family.

BESS JOHANNA ORMSBY'S best day's milk is 101 lbs., her dam's is 123 lbs., and her granddam's is 101 lbs.

KING OF THE ORMSBYS (HERD SIRE)

BESS JOHANNA ORMSBY has 3 three-quarter sisters with the following records: 42.31 lbs. of butter (7 days), 1175 lbs. (365 days); 35.10 lbs. of butter (7 days), 1113 lbs. (365 days); 33.23 lbs. of butter (7 days), 1235 lbs. (365 days).

We Are Consigning to the Philadelphia National Sale WINTERTHUR KORNDYKE ORMSBY Born Dec. 30th, 1918.

This Young Bull is a Son of Bess Johanna Ormsby and King Korndyke Colantha Ormsby 96546. The Combined Long and Short Time Records Back of His Sire, as Well as Those of His Dam and Her Maternal Relatives, Are of the Highest Merit.

KING OF THE ORMSBYS possesses inherited individuality and breeding that are second to none.

His sire, Sir Pieterje Ormsby Mercedes with a 35-lb. dam, was the premier sire of show-ring winners and is the only sire living or dead with nine daughters that have made yearly butter records of 1000 lbs. and over. Two of his daughters each made over 40 lbs. of butter in seven days. Only one other sire has more than two 40-lb. daughters.

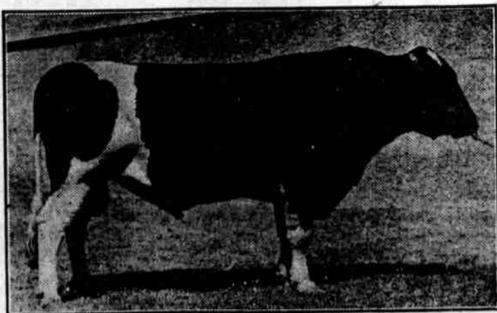

From his dam, Spring Brook Bess Burke 2d, King of the Ormsbys inherits size, type and a combination of long and short time records that are unsurpassed by any bull of any breed. A photograph of his wonderful dam appears above—study it.

By the recent performance of his full sister, Bess Johanna Ormsby (record, 40.71 lbs. of butter in 7 days), and also by the combined long and short time records of his three-quarter sisters, we have conclusive proof that he will transmit to his offspring all the marked qualities of his ancestors.

As King of the Ormsbys is only three years old none of his young daughters have freshened, but their conformation is in keeping with the noted Spring Brook Bess Burke 2d family in every way. We should be glad to have YOU come and look them over.

We always have for sale a number of young bulls that are sired by King of the Ormsbys or by one of our other herd sires whose photographs are shown below.

## OUR OTHER HERD SIRES ARE:

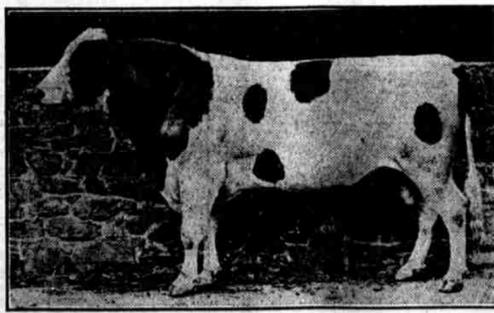

JOHANNA KING SEGIS

JOHANNA KING SEGIS is a son of King Segis Beets and Johanna De Kol Van Beers (record, 40.07 lbs. of butter in 7 days).

JOHANNA KING SEGIS' sire is a son of King Segis and has 45 A. R. O. daughters (three of them with records above 30 lbs. of butter in 7 days), and several of his daughters have very creditable 305 and 365-day milk and butter records.

JOHANNA KING SEGIS' dam, Johanna De Kol Van Beers, was the second cow to make 40 lbs. of butter in 7 days. She broke the world's record by producing 541.35 lbs. of butter in 120 days.

Our reason for buying Johanna King Segis was because of the excellent showing that is being made by his daughters here. We want more of them, and therefore we are mating him with some of the very best cows and heifers that we own, particularly with the daughters of our Sir Inka Prilly Segis, in order to intensify the King Segis blood in our herd.

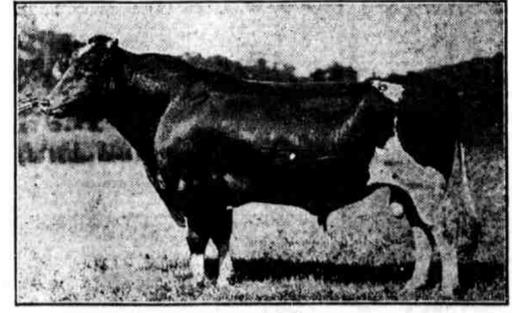

SIR INKA PRILLY SEGIS

SIR INKA PRILLY SEGIS is a son of King Segis and Inka Prilly (record, 30.01 lbs. of butter in 7 days).

SIR INKA PRILLY SEGIS has been in service at Winterthur Farms but a few years. His first daughters born here began freshening this past season. Only ten have freshened to date—six of them making from 20 to 25 lbs. of butter in seven days and milking as high as 80 lbs. a day. He has in all 24 A. R. O. daughters. It is our aim to put all his daughters on yearly work. His first two-year-old daughter to be put on yearly work will finish her record in June. In 236 days she has produced 558.00 lbs. of butter and 16,914.00 lbs. of milk.

About one-fifth of our herd (325 females) is made up of daughters of Sir Inka Prilly Segis. They are an unusually type, straight-backed lot with particularly well-balanced udders. They are being mated with King of the Ormsbys, King of the Sadie Vales and Johanna King Segis.

KING OF THE SADIE VALES

KING OF THE SADIE VALES, born March 11th, 1915, is a son of King Korndyke Sadie Vale and Sadie Vale Concordia 4th Pietje (record, 38.43 lbs. of butter in 7 days).

KING OF THE SADIE VALES' sire, King Korndyke Sadie Vale, is the only bull in the world with a 40-lb. dam, a 40-lb. sister, and a 40-lb. daughter. King Korndyke Sadie Vale is sired by King Segis De Kol Korndyke (a 37.41-lb. son of King Segis) who is also the sire of Mabel Segis Korndyke (40.32 lbs.). The dam of King Korndyke Sadie Vale is Sadie Vale Concordia 4th (41.06 lbs.) with a 30-lb. dam.

KING OF THE SADIE VALES' dam, Sadie Vale Concordia 4th Pietje (38.43 lbs.), with her 41-lb. dam and 30-lb. granddam, exceed by 17.80 lbs. the average production of any three generations of cows; they average 146.36 lbs. of butter in 30 days.

KING OF THE SADIE VALES' five nearest dams each has produced in one day over 100 lbs. of milk. No other bull in the world can equal any of the averages of his three to nine nearest dams for butter and milk production (30 days).

One of our 5-year-old cows has just completed a yearly record of 1,346.94 lbs. of butter and 28,035.7 of milk  
Our aim is to have all of our cows make yearly records
